

# Lakshay Goel (M) 19

(Portfolio)

(LinkedIn) (Github)

Email : [lakshaygoel911@gmail.com](mailto:lakshaygoel911@gmail.com)

Mobile : +91-7404783133

## Skills

---

- **Languages:** Go, Python, C, Java, HTML, CSS, JavaScript, Rust, Perl, PHP
- **Libraries:** React, React Redux, NextJs
- **Technologies and Frameworks:** Google Cloud (Compute Engine), VM provisioning, N8N, Zapier, Figma, Make.com, Shopify, Docker, Web Sockets, Postgres, React Native, Git, ExpressJs, SpringBoot
- **Databases:** MongoDB, Mysql

## Experience

---

- **Workflow AI**  
**AI Product Intern** October 2025 – Present
  - Built AI-driven workflow automation features and backend pipelines to streamline HR processes.
  - Developed scalable backend systems and database integrations (Supabase, SQL, APIs) and created web-based AI product with Next.js.
- **UigGeeks**  
**Full Stack Developer** May 2025 - July 2025
  - Built a **SaaS product** for applying custom watermarks on images with Shopify integration.
  - Developed the frontend for an **AI-powered** customer support system, linking Shopify stores with external support platforms.
- **Evren Global Solution**  
**Web Developer Intern** June 2024 - July 2024
  - Developed a **full-stack gym website** to track and manage gym members' records efficiently.
  - Collaborated on the creation of a **responsive website** called Zinmay, transforming provided designs into a fully functional and user-friendly site

## Projects

---

- **ThinkSync AI (Link):** ThinkSync AI is a full-stack collaborative note-taking application featuring real-time synchronization, rich text editing, and granular sharing controls. It integrates Google Gemini AI to provide intelligent writing suggestions, auto-completion, and content analysis. The platform includes secure Google authentication, version history, and email notifications to deliver a seamless and productive user experience.
- **QuickCourt (Link):** Designed and Deployed a full stack web application that enables users to book local sports facilities and join or host matches. It uses a role-based modules for users, owners and admins with features like venue search, bookings and analytics dashboard.
- **Distributed File Storage System (Link):** Developed a distributed file storage system in Go with peer-to-peer communication, fault-tolerant storage, data broadcasting, and TCP-based reliable connectivity. Ensured secure, scalable, and distributed data access through checksum validation and recovery mechanisms.
- **Loan Fraud Detection Using GNN (Link):** Developed a research paper on a hybrid model to detect loan fraud by analyzing the pattern in applications. It combines SMOTE-balanced ANN, autoencoder-based feature compression and GNN to model relation between the applicants. It achieved 84% accuracy which is better than the 78% accuracy of traditional models.

## Education

---

- **B.Tech(CS), The NorthCap University** Gurugram, India  
Has Been awarded with dean's list student Aug. 2022 - Present
- **Class 12<sup>th</sup> (Central Board of Secondary Education)** Panipat, India  
Secured 90.5 % in top five subjects May 2021 – April 2022
